Heroku SQL

Plugin that provides a sql console for your heroku app.

Installation

To install:

```
$ heroku plugins:install git://github.com/ddollar/heroku-sql-console.git
```

Usage

```
$ heroku sql
SQL console for example.heroku.com
SQL> SELECT * FROM users;
+-----------------------------------------------------------------------------------------------------+
| id | handle | token     |                    secret                          |        last_updated_at       |
+-----------------------------------------------------------------------------------------------------+
|  1 | xxxxx  | 15317640- | v1jlk2Y2o2KhAvIf98SqF3emR0ON532X00b2aDPjNI  | Thu Apr 29 03:12:45 -0700 2010 |
|  2 | yyyy   | 8938502-  | blu8ZkQdtIGU52Dva2KlkZtXQHZXW5jftikPLsJnUmE | Thu Apr 29 03:12:46 -0700 2010 |
+-----------------------------------------------------------------------------------------------------+

SQL> show tables
+--------------------------------------+
| table_name                           |
+--------------------------------------+
| delayed_jobs                         |
| messages                             |
```
